Preface

This publication contains statistical tables and charts in relation to Queensland and is intended to supplement the Series 11 (2005–06) annual national report on the Supported Accommodation Assistance Program (SAAP) National Data Collection. The first national report, containing 1996–97 data, was published in December 1997. The reports provide information on people who are homeless or at risk of being homeless.

A productive and cooperative partnership has continued between the SAAP National Data Collection Agency (managed by the Australian Institute of Health and Welfare), SAAP agencies and the SAAP Information Subcommittee. Valuable support and encouragement have been provided by the SAAP Coordination and Development Committee, which is responsible for the national direction of SAAP.

This partnership has been built on shared goals and mutual trust. The key has been agencies' willingness to collect and provide data to the National Data Collection Agency, knowing that any personal information provided by clients is protected by the extremely strict confidentiality provisions of the *Australian Institute of Health and Welfare Act 1987*.

The fact that 94% of agencies in Queensland provided data in 2005–06 is testimony to their collective commitment to, and confidence in, the collection. A 94% participation rate was also recorded in 2004–05. Eighty-six per cent of SAAP clients consented to the provision of their personal data to the National Data Collection Agency in 2004–05 and in 2005–06.

This large and complex project has not only a high level of support but also a high level of accuracy. We are confident that we can further improve the quality of the information provided to help policy makers and the community better understand and provide for the needs of people who are homeless or at risk of being so.

Under the Coordination and Development Committee's direction, a SAAP National Research Program has been established to undertake and fund studies on homeless people, often using data from the National Data Collection. Each year, the National Data Collection Agency receives many requests for data used for research purposes.

Development Committee

Acknowledgments

This report was prepared by Felicity Murdoch, Simon Edwards and Lynda Carney of the SAAP National Data Collection Agency at the Australian Institute of Health and Welfare. Anne Giovanetti, Justin Griffin, Diane Gibson and the SAAP Information Subcommittee provided helpful comments on the draft report.

Table programming and production were carried out by Andrew Powierski. Data entry was performed by Tom Watson and Katrina Williams. Without the efforts of Neil Angel, John Cologon, Phil Denman, Melita Kunstelj, Stirling Lewis, Michael Navaratnam, Joan Reid, Toni Stepniak, Dianne Oglesby, Kay Grzadka, Frieda Rowland, Sergei Mitnik, Brett Davis and Qasim Shah who ensured that the data were collected and processed, this report would not have been possible. Cecilia Burke and Peter Nolan provided assistance in preparing the report for publication.

Finally, the authors acknowledge the vital role played by data providers. This report draws together a large amount of statistical material and could not have been produced without the efforts and cooperation of SAAP service providers and clients, who provided service and client information, and of the Australian Government Department of Families, Community Services and Indigenous Affairs (FaCSIA) and the Queensland Department of Families, which provided administrative data.
