

List of tables

Table 2.1:	Tobacco smoking status: proportion of the population aged 14 years and over, by sex, Australia, 1991 to 2004.....	4
Table 2.2:	Tobacco smoking status: proportion of the population aged 14 years and over, by age group and sex, Australia, 2004	6
Table 2.3:	Volume of tobacco cleared through excise and customs, Australia, 1995–96 to 2004–05	8
Table 2.4:	Government revenue related to the sale of tobacco, Australia, 1995–96 to 2004–05	9
Table 2.5:	Prevalence of daily smoking, population aged 15 years and over, selected countries, 1975 to 2005.....	10
Table 2.6:	Tobacco consumption, grams per capita, population aged 15 years and over, selected countries, 1975 to 2005.....	11
Table 3.1:	Alcohol drinking status: proportion of the population aged 14 years and over, Australia, 1991 to 2004.....	12
Table 3.2:	Alcohol drinking status: proportion of the population aged 14 years and over, by age group and sex, Australia, 2004	13
Table 3.3:	Long-term and annual short-term risk of harm from alcohol, population aged 14 years and over, 2004	14
Table 3.4:	Alcohol available for consumption and apparent per person consumption by persons aged 15 years and over, Australia, 1996–97 to 2004–05.....	16
Table 3.5:	Government revenue related to the sale of alcohol, Australia, 1995–96 to 2004–05	17
Table 3.6:	Per capita consumption of alcoholic beverages, selected countries, 2003	19
Table 3.7:	Alcohol consumption, litres of pure alcohol per capita, population aged 15 years and over, selected countries, 1965 to 2005	20
Table 4.1:	Summary of illicit drug use: proportion of the population aged 14 years and over, Australia, 2004	22
Table 4.2:	Summary of recent illicit drug use: proportion of the population aged 14 years and over, by drug type, Australia, 1991 to 2004.....	24
Table 4.3:	Prevalence of substance use, population aged 15–64 years, selected countries, 2004	25
Table 4.4:	Methamphetamine use, persons aged 14 years and older, by age, by sex, Australia, 2004	26
Table 4.5:	Methamphetamine use by friends and acquaintances, persons aged 14 years and older, by use status, Australia, 2004.....	26

Table 4.6: Form of methamphetamine used, recent users aged 14 years and older, by sex, Australia, 2004	27
Table 4.7: Usual place of use of methamphetamine, recent users aged 14 years and older, by sex, Australia, 2004.....	27
Table 4.8: Other drugs used with methamphetamine, recent users aged 14 years and older, by sex, Australia, 2004.....	28
Table 4.9: Proportion of people in the IDRS and EDRS studies using methamphetamine in the last 6 months, by methamphetamine form and age group, Australia, 2005	29
Table 5.1: Top 10 prescription medicines distributed through community pharmacies, Australia, 2005.....	31
Table 5.2: Top 10 prescription drugs by cost to the Australian Government (PBS and RPBS), Australia, 2005	31
Table 5.3: Top 10 prescription medicines issued through community pharmacies by defined daily dose, Australia, 2005	32
Table 5.4: Number of community prescriptions issued for selected ATC groups, Australia, 2001 to 2005.....	33
Table 6.1: Number of deaths and DALYs attributable to tobacco, by condition, 2003	35
Table 6.2: Number of deaths and DALYs attributable to alcohol, by condition, 2003.....	36
Table 6.3: Number of deaths and DALYs attributable to illicit drug use, by condition, 2003	37
Table 6.4: Type of mental health problem, injecting drug users attending a health professional for a mental health problem other than drug dependence, 2005	38
Table 6.5: Psychological distress, by selected drug use patterns, persons aged 18 years and over, 2004.....	39
Table 6.6: Self-reported prevalence of hepatitis B and prevalence of hepatitis C among injecting drug users, by duration of injecting drug use, 2005	40
Table 6.7: AIDS diagnoses, by HIV exposure category, Australia, 1997 to 2005	41
Table 6.8: Deaths following AIDS, by HIV exposure category, Australia, 1997 to 2005	42
Table 6.9: Injecting drug users who reported using a needle and syringe after someone else in the last month, by year, sex and history of injecting drug use, Australia, 1997 to 2005.....	43
Table 6.10: Proportion of injecting drug users who had shared needles or other injecting equipment in last month, by state/territory, Australia, 2004 and 2005	44
Table 6.11: Proportion of injecting drug users reporting non-fatal heroin overdose, selected risk behaviours and protective factors for overdose, Australia, 2005	45
Table 6.12: Number of accidental deaths due to opioids among persons aged 15–54 years, by sex and state/territory, 2003 and 2004	46
Table 7.1: Alcohol consumption among secondary students aged 12–17 years, by age group and sex, Australia, 1999, 2002 and 2005	49

Table 7.2: Lifetime and recent use of illicit drugs by secondary students aged 12–17 years, Australia, 1999, 2002 and 2005.....	50
Table 7.3: Polysubstance use in the past 12 months among 12–17 year olds, Australia, 2005	51
Table 7.4: Use of tobacco, alcohol and other substances, Aboriginal and Torres Strait Islander peoples aged 15 years and over, 2004–05.....	52
Table 7.5: Long-term and annual short-term risk of harm from alcohol, population aged 14 years and over, by Indigenous status, 2004.....	53
Table 7.6: Maternal demographic characteristics of pregnancies to mothers with and without a drug-related diagnosis code, 1998–2002.....	55
Table 7.7: Neonatal characteristics of births to mothers with and without a drug-related diagnosis code, 1998–2002.....	56
Table 7.8: Demographic characteristics of injecting drug users, by jurisdiction, Australia, 2005.....	60
Table 7.9: Serology results and injecting drug history in prisoners, by state, 2004.....	61
Table 7.10: Proportion of employed recent drinkers, by risk category and industry classification, Australia, 2001	62
Table 7.11: Proportion of employed recent drinkers who missed work because of alcohol use or illness/injury, who went to work under the influence of alcohol, and who usually drank at work, by risk category, Australia, 2001.....	63
Table 8.1: Closed treatment episodes by principal drug of concern and sex, Australia, 2004–05	65
Table 8.2: Closed treatment episodes by main treatment type, by state and territory, Australia, 2004–05.....	68
Table 8.3: Estimated pharmacotherapy clients by prescriber type and jurisdiction, Australia, as at 30 June 2005	70
Table 9.1: Illicit drug arrests, by type of drug and consumer status, Australia, 1996–97 to 2004–05.....	72
Table 9.2: Sentenced prisoners where the most serious offence was drug related, by type of offence, by state and territory, Australia, 1995 to 2005	73
Table 9.3: Proportion of adult detainees testing positive to illicit drugs, by age group, sex and type of illicit drug, Australia, 2005.....	75
Table 9.4: Prevalence of substance use among juvenile detainees, Australia, 2005	77
Table 9.5: Intoxication at the time of current offence, Australia, 2003–04	77
Table 9.6: Type of drug used by drug-intoxicated juvenile offenders at time of current offence, Australia, 2003–04	78
Table 9.7: Regular substance use in six months prior to arrest, by type of regular offender, Australia, 2003–04	78
Table 9.8: Proportion of juveniles in detention by type of offence and type of drug used at the time of offence, Australia, 2004.....	79

Table 9.9: Self-reported crime among injecting drug users and proportion arrested in the last year, by type of crime, Australia, 200579

Table 9.10: Median purity of heroin seizures analysed in Australia, by state and territory, 1999-00 to 2004-0581

List of figures

Figure 2.1: Daily smokers: proportion of people aged 14 years and over, 1985 to 2004	5
Figure 3.1: Indices of alcohol consumption: Australia, 1964–65 to 2002–03	15
Figure 4.1: Prevalence and 95% confidence intervals of drug use in the last 12 months, selected illicit drugs, persons aged 12 years and over, by age group, Australia, 2004	23
Figure 6.1: Hepatitis C prevalence among people attending needle and syringe programs, by sex, Australia, 1995 to 2005	40
Figure 6.2: Opioid overdose deaths: rate per million persons aged 15–54 years, Australia, 1988 to 2004.....	46
Figure 7.1: Trends in tobacco smoking among secondary students aged 12–17 years, Australia, 1984 to 2005.....	48
Figure 7.2: Proportion of mothers smoking during pregnancy, by state and territory, 2001 to 2003.....	54
Figure 7.3: Proportion of SAAP support periods where reason for seeking assistance and/or support to the client was for substance use, by age group and sex, Australia, 2004–05.....	57
Figure 7.4: Proportion of SAAP support periods where reason for seeking assistance and/or support to the client was for substance use, by sex, Australia, 1998–99 to 2004–05.....	58
Figure 7.5: SAAP support periods where an additional mental health problem was indicated: proportion of support periods where the reason for seeking or receiving assistance included drug, alcohol and substance abuse, by age group and sex, Australia, 2004–05.....	59
Figure 8.1: Closed treatment episodes by selected principal drug of concern and age group, Australia, 2004–05	66
Figure 8.2: Closed treatment episodes by injecting drug use and age group, Australia, 2004–05	67
Figure 9.1: Prevalence of substances ever used by juvenile detainees and adolescents in the general population, Australia, 2003–04.....	76
Figure 9.2: Customs border detections of heroin, by number and total weight, Australia, 1994–95 to 2004–05.....	82
Figure 9.3: Customs border detections of ecstasy (MDMA), by number and total weight, Australia, 1994–95 to 2004–05.....	83
Figure 9.4: Clandestine laboratory detections, Australia, 1996–97 to 2004–05	84
